

EZrap Carbon Heater • Mat

Shared use of controller

EZrap Carbon Heater mat and belt share the same controller.
You can purchase only a heating belt without the controller when you have previously bought a complete set of a heating mat (including a controller).

EZrap Carbon Heater • Mat

“it’s a New Creation”

An unimaginable feeling of coziness and comfort created by far infrared energy”

EZrap Carbon Heater Heating Mats made of 100% carbon nano-tube yarns, eco-friendly materials, and natural cotton, will present the most natural and healthful heat.

EZrap Carbon Heater Heating mats are manufactured by Doctor Supply that specializes in the development and manufacture of medical instruments. These safe and healthful mats are made of a composite material that combines cutting-edge carbon nano-tube yarn-based fleece that boasts of excellent heat-retaining ability with natural cotton that is harmless to the human body.

Especially, our mats provide users with natural thermal energy of far infrared radiation emitted from carbon nano-tube yarns, which will enable them to enjoy a uniform increase in body temperature together with a feeling of coziness and comfort.

Product Features

- ◆ Increase in deep body temperature through stimulation of the dermal layer using far infrared radiation.
- ◆ Generation of very comfortable and natural thermal energy
- ◆ 5-step heat regulation
- ◆ Powerful 5-step safety system
- ◆ 3-step timer (1Hr, 2Hr, 15Hr)
- ◆ Built-in auto overheating control (for prevention of low-temperature burns)
- ◆ Reduced static and Electromagnetic waves
- ◆ Shared use of the same controller between both belt and mat (excellent compatibility)

EZrap Carbon Heater Heating Mats is very safe and easy to handle.

This product does not contain electric heating wire, but it is 100% made of carbon yarns; you can store it conveniently in any place. This product permits folding or rolling to your desired shape. This product can be stored conveniently in the shape and in the place you want when it is unused for a long period of time.

Optimal thickness and rigid sewing

makes this product very thin yet tough enough to enable easy use and convenient storage. These features are unique and possible only to EZrap Carbon Heater heating mat, for it contains no electric heating wire.

Separation of a mat for 2 persons (connected by a zipper)

This mat is detachable; it can be separated into two parts, if necessary, so each can be used individually.

EZrap Carbon Heater • Mat

“it’s a New Creation”

EZrap Carbon Heater Heating Mat is very safe and convenient.

Unlike general heating mats, our heating mat uses 100% carbon nano-tube yarns without the use of heating wire which enables adoption of a dual heating system.

It is equipped with a 5-step safety system which prevents the product from getting heated above 75°C providing a protection against low-temperature burns.

Carbon Yarn

- ◆ Emit far infrared radiation
- ◆ Exhibit excellent heat conduction
- ◆ Provide uniform and comfortable heat
- ◆ Reduce electromagnetic waves
- ◆ are safe because there is no heating wire used

Natural Pulp

- ◆ Eco-friendly materials (cotton, rayon)
- ◆ Natural fabric harmless to humans
- ◆ Minimized/little skin irritation, even to a sensitive skin

EZrap Carbon Heater Heating Mats place top priority on our users' safety.

Our products are developed with most consideration given to customers' safety. Safety is special but our customers take it for granted, for this is the basic development principle of our products.

Acclaimed as the best patent

5-Step safety system

No Heating wire

Safe DC24V

Reduced EM waves/static electricity

Low power consumption

EZrap Carbon Heater Heating Mats promise to present a feeling of comfort beyond all imagination and the most healthful thermal energy.

Our products are developed to present healthful heat to our customers. The spirit of delivering natural and healthful heat to all people is another basic principle that we have strived for in EZrap Carbon Heater.

100 Carbon nano-tube

Emission of far infrared radiation

Eco-friendly materials

Fabric of pure cotton

No heating wire

Rapid heating

EZrap Carbon Heater Heating Mats are easy to use and they are very logical.

Our products are developed for everybody to make easy use. Compared with many heating mats available at high prices for their features, our products will be offered at very reasonable prices.

5-Step temperature control

Automatic timer

Convenient storage

LED Status panel

Light weight

Hand-washable

EZrap Carbon Heater • Mat

EZrap Carbon Heater Heating Mats come with different controllers. Make a choice from 3 controller types that can best fit in with your circumstance.

Type A Controller

- ◆ 5-stage temperature control
- ◆ 3-stage time selection
- ◆ LED status display
